

# NEA 430 – Generation II

## Dense Phase Pump without electric supply

U.S. PATENT 11.536.296

NEA 430 is an entirely pneumatic transport device for powders, granulates and polymers, dense phase low pressure, which guarantees a high and constant flow rate of the product. It is also available with a pump body made of FDA compliant materials.

### Product change in less than one minute

The innovative cyclonic valve allows an accurate and uniform cleaning of powder residual in pump body and transporting piping.

FLOW RATE:	Up to max 4 Kg/min
ASPIRATION TUBE:	Up to max 3,5 mt
TRANSPORT TUBE:	Up to max 30 mt
SELF CLEANING:	Included
SUPPLY:	6 bar
